

For Immediate Release

Mouser is Stocking the New Harwin S-Tek 2mm Datamate High Reliability Connectors.

Mansfield, Texas, USA — March 29, 2011 - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Harwin.

Harwin's S-Tek 2mm Datamate Connectors provide highly reliable electrical screening from EMI/RFI interference. The S-Tek series features a single-piece, metal backshell designed to attach to a wide array of standard metallic braids using industry standard tools. The shield braid connects through the backshell to the PCB ground plane. When used with the Harwin J-Tek 2mm Datamate Connectors and metal braid, the S-Tek series backshells ensure full 360° electrical shielding. The Harwin's S-Tek 2mm Datamate Connectors are available in female cable-to-PCB-mount and cable-to-panel-mount configurations in a range of sizes including 6, 10, 14, 20 and 26 positions. Ideally suited for numerous I/O applications in the Aerospace marketplace as well as Industrial Electronics and Control System applications.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Harwin

Harwin has supplied superior electrical interconnects for over 50 years. Harwin's global network of manufacturing, support centers, and distributors allow them to meet the specialist needs of the world interconnection market. Harwin connectors have a proven history in several applications, including Military and Aerospace.

Harwin's Datamate is a professional range of 2mm pitch connectors suitable for high-performance applications. The series of Miniature High Reliability Connectors with latches (L-Tek) or Jackscrews (J-Tek) provide additional connection security and are great for high levels of shock and vibration. The Datamate connectors have a unique contact design that allows 3 amps for signal contacts and up to 20 amps (Mix-Tek) for power contacts. Datamate provides maximum flexibility for design engineering. Reliability When You Need it Most. For more information, visit <http://www.harwin.com>.
