

For Immediate Release

Stay Connected With The New Hirose DH Series 1mm Pitch Interface Connectors At Mouser!

June 24, 2011 - Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Hirose Electric.

Hirose introduced the DH Series as a line of shielded, impedance-controlled interface connectors for high-speed data transmission. Featuring small pitch sizes (0.5mm mounting pitch and 1mm contact mating pitch), the DH Series is a more compact, lower-profile, higher-density alternative to conventional half-pitch interface connectors. The Hirose DH Series 1mm Pitch Interface Connectors offer a D-shaped interface design to resist wrenching forces, through-hole style metal fittings to increase retention to the PCB, a unique contact arrangement for IDC termination, excellent shielding for EMI prevention, and transmission rates up to 2.5 Gb/s when coupled with a high speed cable. Available with four different locking styles. The Hirose DH Series 1mm Pitch Interface Connectors are ideal for enterprise networking, industrial, telecom, and datacom applications requiring higher data speeds.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 17 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Hirose Electric

Hirose Electric Company specializes in the manufacture of connectors and has been a contributor to the development of the electronics sector for over 70 years. Their modest and humble business philosophy of seeking wisdom from all sources and incorporating that knowledge to maintain high quality and efficiency has earned Hirose a loyal customer base. Hirose is also committed to environmental issues in the manufacture of connectors such as coaxial connectors, FFC / FPC connectors, and single and double row connectors.
