Honeywell Low Profile Force Sensor, FSS-SMT Series

Mansfield, Texas, USA — September 30, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Honeywell Sensing & Control.

Honeywell's FSS-SMT Series Force Sensors are ultra-reliable with a 20 million Mean Cycles to Failure (MCTF) at 25°C (77°F) rating in a compact commercial-grade package. Low deflection of 30 microns typical at full scale help reduce measurement error and direct mechanical coupling of the actuation ball to the sense element reduces coupling errors and keeps mechanical hysteresis to a minimum. The Honeywell FSS-SMT Series Force Sensors are ideal for a variety of potential applications in the medical and commercial industries.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Honeywell Sensing & Control

For innovation that's set well apart, there is only Honeywell Sensing and Control. With more than 50,000 products ranging from snap action, limit, toggle, and pushbutton switches to sensors for position, speed, pressure, torque, temperature, humidity, and airflow. Honeywell Sensing and Control has a product to meet your needs.

Honeywell Sensing and Control brings engineering expertise and capabilities that no other company offers. With its comprehensive portfolio, quality, and reliability, Honeywell Sensing and Control products support every step of your most demanding goals and standards to deliver consistent, trustworthy performance.
