Mouser is First to Stock the New HTC Series Thick Film Chip Resistors from IRC / TT electronics with operating temperatures to +200°C!

Mansfield, Texas, USA — May 19, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from IRC / TT electronics.

The IRC / TT electronics HTC Series Thick Film Chip Resistors feature operating temperatures from -55°C to +200°C with excellent high temperature stability. The HTC series provide maximum voltage ratings of 200V, 400V, and 500V, with case sizes 1206, 2010, and 2512, respectively. The Pb-free wrap-around terminations feature a leach resistant, electroplated Ni barrier and pure Sn matte finish. The IRC / TT electronics HTC series Thick Film Chip Resistors are resistant to all normal industrial cleaning solvents suitable for PCBs.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About IRC / TT electronics

IRC is an innovative leader in the design, development, and manufacture of resistive components and a worldwide quality supplier focused on resistor application solutions. IRC's line of resistors include carbon composition, carbon film, current sensing, fusing, jumper, metal film, power, precision, thick and thin film, as well as resistor kits, networks, and arrays.
