The New Infineon BCR420U LED Driver is In Stock at Mouser!

Mansfield, Texas, USA — November 30, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Infineon Technologies.

The Infineon BCR420U LED driver provides a low-cost solution for driving 0.25W LEDs with an LED forward current up to 150 mA. Internal breakdown voltage is 40V, which is the maximum voltage that the Infineon BCR420U LED driver IC can sustain. With no need for additional external components like inductors, capacitors, and free wheeling diodes, the Infineon BCR420U LED drivers are a cost-efficient and PCB-area saving solution. To learn more, visit <http://www.mouser.com/infineonbcr420u>.

With its broad product line and unsurpassed customer service, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 6.7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of the newest products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
