Looking for a Micro USB 3.0 connector? Mouser has the New Kycon KMMX Series in stock!

Mansfield, Texas, USA — December 07, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Kycon.

The Kycon KMMX Series Micro USB 3.0 (also known as SuperSpeed USB) are more compact than the mini-USB. The stainless steel shell with Nickel plating yields 10,000 insertion cycles making it ideal for portable devices such as mobile phones, PDAs, and digital cameras. The Kycon KMMX Series Micro USB 3.0 meets the USB-IF 3.0 specification and is available as SMT with through hole shield tabs or SMT. The contacts are 30µ" Gold plated over Nickel and Gold flash plating on the solder tail.

About Kycon

Kycon is a leading global supplier dedicated to providing cost effective interconnect solutions of the highest quality. Kycon's first products were D-Sub connectors for the PC, peripheral, industrial control, and test equipment. Over the years, Kycon has been expanding upon other I/O connectors that have enhanced innovative applications while adding to the D-Sub product mix. Such expansions have included modular jacks, USBs, HDMI™, DC Power Jacks, custom cable capabilities, as well as other customized solutions.

Kycon's commitment to excellence in products and customer satisfaction is realized by recently being named the #1 connector company in the Bishop and Associates "2009 Customer Survey of the Electronic Connector Industry." Kycon is committed to maintaining a clear focus on quality, world-class service, and support.
