Littelfuse Thermally Protected Varistors Series: TMOV34S

Mansfield, Texas, USA — July 20, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Littelfuse.

The Littelfuse Thermally Protected Varistors Series TMOV34S represent a new development in circuit protection. It consists of a 33mm square MOV which offers high surge capability (40kA) together with an integrated thermally activated element designed to open in the event of overheating. The Varistor has a third indicator lead which may be used to indicate that the MOV has been disconnected from the circuit. This third lead facilitates connection to monitoring circuitry. The Littelfuse Thermally Protected Varistors Series TMOV23S provide quick thermal response due to the proximity of the thermal element to the MOV body. The integrated configuration also offers lower inductance for improved clamping performance to fast over voltage transients. To learn more, visit <http://www.mouser.com/littelfuse>.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Littelfuse

Littelfuse offers innovative circuit protection solutions. Wherever you look, Littelfuse is there. Streetlights, office buildings, cars, trucks, factories, computers, heating and cooling systems, electronic games, telecommunications equipment, even the satellites in the sky are protected by Littelfuse circuit protection products.

For the past 80 years, Littelfuse has designed, engineered, and invented circuit protection technology. Littelfuse strives to meet the ongoing need for smaller, faster, and safer circuit protection.
