Mouser is First to Stock the New Up-LINK Remote Indicating Fuse Holder from Littelfuse!

Mansfield, Texas, USA — April 23, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Littelfuse.

The Littelfuse Up-LINK® Remote Indicating Fuse Holder is a solid state, dead-front fuseholder that provides remote fuse status indication without the need to incorporate proprietary network protocols. For Class CC and Midget fuses, the Up-LINK series is a cost effective solution for remote blown fuse indication that easily integrates with an existing PLC or system. A remote indication alerts maintenance personnel monitoring the system and a separate local LED indication on the face is viewable once the panel door is open. The Littelfuse Up-LINK Remote Indicating Fuse Holder does not share data with any 3rd party and meets stringent IEC and UL Touch Safe Standards to improve worker safety. [Product of the Year finalist by Plant Engineering Magazine!](#)

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Littelfuse

Littelfuse offers innovative circuit protection solutions. Wherever you look, Littelfuse is there. Streetlights, office buildings, cars, trucks, factories, computers, heating and cooling systems, electronic games, telecommunications equipment, even the satellites in the sky are protected by Littelfuse circuit protection products.

For the past 80 years, Littelfuse has designed, engineered, and invented circuit protection technology. Littelfuse strives to meet the ongoing need for smaller, faster, and safer circuit protection.
