Microchip Technology MRF49XA Sub-GHz RF Transceiver Radio

Mansfield, Texas, USA — June 24, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Microchip Technology.

The Microchip Technology MRF49XA is a fully integrated Sub-GHz RF transceiver radio supporting the 434/868/915 MHz ISM frequency band and FSK modulation with FHSS capability. The Microchip Technology MRF49XA RF transceiver radio is ideal for two-way, short-range wireless applications, and is easy to integrate with any Microchip 8-, 16-, or 32-bit PIC® MCU. The Microchip Technology MRF49XA RF transceiver is also available on the PICtail™ / PICtail Plus daughter board for easy integration with the 8-bit PIC18 Explorer and 16-/32-bit Explorer 16 modular microcontroller development boards. To learn more, visit http://www.mouser.com/Microchip_MRF49XA.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
