Mouser First to Stock the New Molex iPass+™ HSC CXP Interconnect System

Mansfield, Texas, USA — November 04, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Molex.

Molex introduces the iPass+™ HSC CXP Interconnect System leverages high-speed wafer technology and compliant pin tails to provide a higher density, 12-channel connector system capable of achieving Quad Data Rates (QDR) of 10 Gbps. The Molex iPass+ Copper Cable Assemblies are designed to accommodate single, ganged, or stacked connector configurations in extremely high-density applications. The dual paddle-card design is cost effective and each cable port is capable of up to 120 Gbps. To learn more, visit <http://www.mouser.com/molexipassplus>.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
