Molex 0.5mm Double Bottom Contact FPC Connectors improve signal integrity

Mansfield, Texas, USA — November 10, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Molex.

The Molex 0.5mm pitch FPC (flexible printed circuitry) Double Bottom Contact Connectors are part of Molex's Easy-On™ product line. The double-contact design provides wiping action from the first contact to remove any foreign substances such as dust that might cause signal intermittence. The result is improved signal integrity and superior contact reliability. The Molex 0.5mm FPC Double Bottom Contact Connectors feature a mated height of 2.50mm and gold plating for the mating and termination. To learn more, visit <http://www.mouser.com/molex>.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects. Mouser Electronics' website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs a year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
