Mouser is stocking the Brand New HDMI™ Type-D Micro Connectors by Molex

Mansfield, Texas, USA — May 05, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Molex.

The Molex HDMI™ Type-D Micro Connectors are the world's smallest standard I/O interconnect for hand-held consumer electronics. The HDMI Type-D Micro Connectors are half the size of the current Type-C (Mini) connectors, but deliver equivalent mechanical strength and electrical characteristics, as well as meet HDMI 1.4 specifications. With a 0.40mm (.016") pitch dual-row receptacle, the Molex HDMI Type-D Micro Connectors offer 5,000 mating cycles for durability in mobile applications, friction lock on receptacle shell for excellent retention force and tactile feel when mating, rear receptacle-shell-over-housing design to prevent damage to PCB receptacle, and a receptacle terminal hold-down feature to prevent terminal stubbing. The Molex HDMI Cable Assembly is Type-D to Type-A. The Molex HDMI Type-D Micro Connectors deliver high-definition video and images from digital cameras and mobile devices to flat-panel screens. To learn more, visit <http://www.mouser.com/molexmicrohdmi/>.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Molex

Established in 1938, Molex is one of the world's largest global manufacturers of interconnect products. Molex creates innovative product solutions for wire-to-wire, wire-to-board, and board-to-board interconnect, including header, backplane, terminal, telecom, ethernet, and cable, as well as application tooling. Molex's efforts to minimize the environmental impacts of business activities, products, and services are reflected in their commitment to their environment management system, ECO CARE.

Nearly Every Connector Under the Sun

In an industry with overwhelming options, it is comforting to know that you can find what you need from Molex and get it when you need it from Mouser.
