Mouser is first to stock the New Molex 0.5mm FPC Connector with Dual Contact!

Mansfield, Texas, USA — August 10, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Molex.

The Molex 0.5mm pitch FPC Connector with Dual Contact provides optimal space savings and the ability to source one connector to accommodate various FPC applications. This new FPC Connector is one of the first 0.5mm (.020") pitch micro versions with a dual contact design. The Molex 0.5mm pitch FPC Connector with Dual Contact eliminates the need to source a top and bottom type connector when routing FPC to parallel boards. It also features a BackFlip™ actuator that provides easy cable insertion and high upward pull force, an actuator lever that offers optimum length for easy use and space savings; nickel barrier plating for protection against flux wicking; and halogen-free material to meet industry standards. Specifications for the 0.5mm FPC connector include a 0.5A current, 50V voltage, and withstanding voltage of 200V AC.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Molex

Established in 1938, Molex is one of the world's largest global manufacturers of interconnect products. Molex creates innovative product solutions for wire-to-wire, wire-to-board, and board-to-board interconnect, including header, backplane, terminal, telecom, ethernet, and cable, as well as application tooling. Molex's efforts to minimize the environmental impacts of business activities, products, and services are reflected in their commitment to their environment management system, ECO CARE.

Nearly Every Connector Under the Sun

In an industry with overwhelming options, it is comforting to know that you can find what you need from Molex and get it when you need it from Mouser.
