

## For Immediate Release

### **Mouser Launches the New Molex Micro SAS Receptacles!**

**Mansfield, Texas, USA — April 19, 2011** - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Molex.

The Molex Micro SAS Receptacles are the storage industry's most compact, next-generation high-speed I/O solution for 1.8 inch drives in mission-critical enterprise-storage Serial Attached SCSI (SAS) applications. The high-speed Micro SAS Receptacles achieve data rates up to 6 Gbps, are fully backward compatible, and comply with SAS 2.0 specifications. Molex's Micro SAS connectors are an ideal solution for high-speed, high-bandwidth SAS applications including solid state drives (SSD), RAID server storage, and HBA adapters. Available versions include the Micro SAS Receptacle, Right Angle, SMT and Right Angle, Dual Stacked. To learn more, visit <http://www.mouser.com/molexmicosas>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

#### **About Mouser**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. ## **About Molex**

Molex, established in 1938, is one of the world's largest global manufacturers of interconnect products. Molex connectors create innovative product solutions for wire-to-wire, wire-to-board, and board-to-board interconnect, including header, backplane, terminal, telecom, ethernet, and cable, as well as application tooling. Molex's efforts to minimize the environmental impacts of business activities, products, and services are reflected in their commitment to their environment management system, ECO CARE.

Nearly Every Connector Under the Sun

In an industry with overwhelming options, it is comforting to know that you can find what you need from Molex and get it when you need it from Mouser.
