Mouser Stocks the New Murata GCJ Series Soft Termination MLCCs!

Mansfield, Texas, USA — November 23, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Murata.

The Murata GCJ Series Soft Termination MLCC are medium voltage capacitors for automotive electronic equipment (power-train, safety equipment). The GCJ Series meet AEC-Q200 requirements. The Murata GCJ Series Soft Termination MLCC improve the endurance against board bending stress through the conductive polymer termination. For flow or reflow soldering.

With its broad product line and unsurpassed customer service, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 6.7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of the newest products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
