The New Nichicon CK Series Conductive Polymer Ultra Low ESR Capacitors are Perfect for High Frequency applications and In Stock at Mouser!

Mansfield, Texas, USA — October 19, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Nichicon.

The Nichicon CK Series Conductive Polymer Ultra Low ESR Capacitors offer ultra low ESR (\leq to specified value at 100kHz, 20°C). The CK Series are aluminum solid electrolytic chip capacitors for SMD with lead-free reflow at 260°C peak correspondence. The Nichicon CK Series Conductive Polymer Ultra Low ESR Capacitors feature high ripple current, high capacitance (220 to 2200 μ F) low impedance, an anti-solvent feature, and are ideal for high frequency applications.

To learn more, visit http://www.mouser.com/nichicon_ck_capacitors.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Nichicon

Since 1950, Nichicon Corporation has been a global leading supplier of high quality electronic components such as Aluminum Electrolytic Capacitors, Tantalum Electrolytic Capacitors, and Plastic Film Capacitors. Nichicon's goal is to offer the highest quality products through their "zero-defect" production management system that ensures stable and reliable production by enforcing strict quality control measures. Their research and development framework puts new technologies to practical use as quickly as possible. Nichicon has acquired ISO 9000 Certification at its headquarters, domestic sales offices, and 18 production sites. For more information, visit <http://www.nichicon.com>.
