

For Immediate Release

Mouser Launches New Nichicon CS Series Pencil-Shaped Type Aluminum Capacitors!

October 11, 2011 - Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Nichicon.

Nichicon's CS Series is part of the new product line of pencil-shaped type leaded aluminum electrolytic capacitors. The CS Series aluminum electrolytic capacitors from Nichicon offer capacitance range of 18 to 270 μ F, voltage of 200-450V, miniature size, high reliability, high ripple current, and load life of 10,000 hours at +105°C. These capacitors are suited for slim-designed products. They are compliant to RoHS directive 2002/95/EC.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Nichicon

Since 1950, Nichicon Corporation has been a global leading supplier of high quality electronic components such as Aluminum Electrolytic Capacitors, Tantalum Electrolytic Capacitors, and Plastic Film Capacitors. Nichicon's goal is to offer the highest quality products through their "zero-defect" production management system that ensures stable and reliable production by enforcing strict quality control measures. Their research and development framework puts new technologies to practical use as quickly as possible. Nichicon has acquired ISO 9000 Certification at its headquarters, domestic sales offices, and 18 production sites. For more information, visit <http://www.nichicon.com>.
