NorComp IP67 SEAL-D™ D-Sub Connectors are in stock at Mouser!

Mansfield, Texas, USA — November 16, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from NorComp.

The NorComp IP67 SEAL-D™ D-Sub Connectors utilize a proprietary sealing technology which maintains the same physical size and footprint as standard D-Sub products. This drop-in replacement eliminates the need to redesign enclosures and PC boards when implementing IP67 design upgrades and reduces space on new designs. The NorComp IP67 SEAL-D D-Sub Connectors are available in standard and high density configurations, as well as 3 termination types. Ideal for electronics that are used outdoors, remote sensors, gauges, and data loggers that are exposed to the elements, and any electronics that are routinely subjected to wash down and short term immersion.
