OSRAM Expands the color offerings for their OSOLON SSL LEDs and Mouser has them In Stock!

Mansfield, Texas, USA — April 13, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from OSRAM Opto Semiconductors.

The OSRAM LCW CP7P, LD CP7P, LA CP7P, and LT CP7P LEDs are new additions to the OSOLON SSL family, an exceptionally small light source with a narrow radiation pattern that is designed to maximize application efficiencies. These new LEDs expand the OSOLON SSL color offerings to include warm to neutral white, deep blue, and true green. The OSOLON SSL is mounted in a new SMD ceramic LED package specially engineered to enable slim and compact lighting designs. The OSOLON SSL features an 80° viewing angle and delivers directed light with outstanding efficiency from an incredibly small source. These OSRAM LEDs are designed for use in residential retrofits and fixtures, task lights, accent lights, professional downlights, shop lighting, and more. To learn more, visit <http://www.mouser.com/osramoslonssl>.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About OSRAM Opto Semiconductors

OSRAM Opto Semiconductors is a world leading manufacturer of optoelectronic semiconductors for the lighting, sensor, and visualization sectors. The extensive product portfolio of OSRAM Opto Semiconductors includes a wide selection of high-brightness high-power LEDs in the visible range along with other semiconductor technologies used in a variety of lighting applications.
