## Mouser Introduces The New Ohmite SH Series Precision Metal-Clad Shunts.

**Mansfield, Texas, USA — February 21, 2011** - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Ohmite.

The Ohmite SH Series Precision Metal-Clad Shunts are designed with a simple four-terminal Kelvin design to ensure easy installation on large current bus bars. The SH Series resistors are distinguished by high load capacity as well as excellent accuracy. Isolated voltage and current connections make them suitable for very precise current connection measurements for battery testing, current detection in precise power sources, constant current sources, industrial power conversion circuits, HEVs, fuel cells, and constant electronic loads. The Ohmite SH Series Precision Metal-Clad Shunts offer low inductance and heavy copper terminals. To learn more, visit <http://www.mouser.com/ohmiteSHshunts>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogues per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About Ohmite**

Since 1925, Ohmite has maintained a leadership position in the design and manufacture of Power Resistive Products. Through innovation and acquisition Ohmite's offering has grown to include power resistors, surface mount resistors, and rheostats. Ohmite will continue to develop new technologies and packaging techniques to meet the demand of the changing market far into the future. For more information, visit <http://www.ohmite.com>.
