## Omron Electronics - World's Shortest GP Relay that can Switch 10A @ 220VDC

**Mansfield, Texas, USA — November 04, 2009** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Omron Electronics LLC.

The Omron Electronics MKS-X Series General Purpose Relays are available in models for DC Loads (can switch 220 VDC, 10A resistive) and AC Loads (can switch 250 VAC, 15A resistive). The MKS-X series is the shortest general purpose relay in the world that can switch 10A @ 220VDC resistive load - at least 4mm shorter than all competitors. Omron Electronics MKS-X General Purpose Relays are ideally suited for switching valves, solenoids, contactor coils, and for power plant applications.

To learn more, visit <http://www.mouser.com/OmronMKS-X/>.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects. Mouser Electronics' website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

### About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs a year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).
