## For Immediate Release

### **The New Omron D2QW Sealed Snap Action Switches Are In Stock At Mouser!**

**October 04, 2011** - Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Omron.

D2QW by Omron is a Sealed Snap Action Switch featuring long stroke slide contact with almost silent operation. The D2QW Switch, with reliable ON/OFF action, is sealed to IP67 standards. High temperature resistance and drip-proof structure make it ideal for applications in severe environmental conditions, such as automotive door latches and home appliance devices used in wet applications. Omron offers the D2QW Sealed Snap Action Switch with two actuator options: pin plunger and simulated roller leaf lever.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

#### **About Mouser**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About Omron**

Founded in 1933, Omron Electronic Components is the world's leading supplier of technologically advanced electronic components. Omron's vast product line includes switches (general, snap-action, control, DIP/SIP, miniature, sub-miniature, and thumbwheel), relays, connectors, optoelectronics, and sensors that are used in consumer electronics, computer peripherals, office automation products, and telecom applications. Omron Industrial Automation supplies the world with advanced electronics and control system components, including switches, relays, power supplies, sensors, calibration equipment, and cable assemblies. Omron RFID is a global leader in RFID technology with their extensive range of reliable products and systems, such as inlays, readers/writers, transponders, development tools, and accessories. For more information, visit <http://www.omron.com/>.
