## **Phoenix Contact M12 Ethernet Control Cabinet Feed-Through**

**Mansfield, Texas, USA — July 10, 2009** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Phoenix Contact.

Phoenix Contact offers the M12 Ethernet Control Cabinet Feed-Through to provide an easy way to transition from field devices to network structure components, such as switches, inside the control cabinet. The M12 connection side of this compact bulkhead is fed through the control cabinet wall from the inside and fastened to the cabinet on the outside using the counter nut. Wiring can then be continued within the control cabinet using RJ45 patch cables. The Phoenix Contact M12 Ethernet Control Cabinet Feed-Through meets CAT5 (IEC 11801:2002) and CAT5e (TIA 568B:2001) and IP65/67 for the M12 connection.
