STMicroelectronics STM32 ARM Cortex™-M3 Connectivity Line MCUs

Mansfield, Texas, USA — July 03, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from STMicroelectronics.

The STMicroelectronics STM32 ARM Cortex™-M3 Connectivity Line is a high-performance addition to the STM32 microcontroller (MCU) portfolio that introduces outstanding new features, including USB 2.0 OTG Full Speed 12 Mbps, Ethernet MAC 10/100 Mbps with Precise Time Protocol IEEE 1588 HW support, Dual CAN 2.0 Active, and Audio Class I²S. The MCUs in the STM32 Connectivity Line are designed for applications in which connectivity and real-time performance are a necessity: industrial control, control panels for security applications, and more. STMicroelectronics Connectivity Line MCUs feature 64 to 256 KB on-chip Flash memory, up to 64 KB SRAM, and 14 communication interfaces.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
