STMicroelectronics LIS331DL 3-Axis Smart Motion Sensor

Mansfield, Texas, USA — July 13, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from STMicroelectronics.

The STMicroelectronics LIS331DL smart motion sensor is the smallest consumer low-power 3-axis linear accelerometer. The STMicroelectronics LIS331DL measures acceleration or inclination along X, Y, and Z axes and is capable of embedded detection of free-fall, motion, wake-up, and click/double click. This STMicroelectronics smart motion sensor features digital I²C/SPI serial interface standard output, smart embedded functions, 2.6V to 3.6V supply voltage, 1.8V compatible IOs, <1mW power consumption, and $\pm 2g$ / $\pm 8g$ dynamically selectable full-scale.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
