For Immediate Release

Mouser Now Stocking Silicon Labs SNAP Enabled Programmable XCVR Development Tools

April 17, 2012 - [Mouser Electronics, Inc.](http://www.mouser.com), regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Silicon Labs.

Silicon Labs' SNAP Enabled Programmable XCVR Development Tools combine Silicon Labs Si1000 wireless MCU enabled with Synapse's SNAP (Synapse Network Appliance Protocol) operating system. These SNAP Enabled Programmable XCVR Development Tools make it easy to deploy scalable, ultra-low power and small-footprint wireless mesh networking solutions for smart metering, building automation, lighting control, personal medical devices, asset tracking systems, and other wireless applications. The Silicon Labs' SNAP Enabled Programmable XCVR Development Tools provides a turnkey hardware /software solution that developers can deploy immediately in their end products. It also offers an easy-to-use development platform for those who want to migrate their wireless designs to high-volume applications using the Si1000 MCU running SNAP as embedded firmware.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Silicon Labs

Silicon Laboratories Inc. is a leading global manufacturer of integrated-circuit (IC) products that combine world-class analog with high-speed digital and FLASH memory in a single, powerful chip. The combination of mixed-signal integration and in-system programmability offers tangible user benefits through higher component integration, greater design flexibility, faster time-to-market, superior system performance, and improved end-product differentiation.
