Silicon Labs EZRadioPRO™ Wireless Solutions

Mansfield, Texas, USA — July 13, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Silicon Labs.

The Silicon Labs EZRadioPRO™ family of transmitters, receivers, and transceivers delivers the industry's highest performing short range wireless solutions at the lowest overall system cost. The EZRadioPRO family targets high-performance wireless applications with the industry's best Rx sensitivity (-118 dBm) and highest output power (up to +20 dBm). These Silicon Labs high performance RF devices offer continuous frequency tuning covering the complete 240-960 MHz band, a wide operating voltage range (1.8-3.6V), and low current consumption. The Silicon Labs EZRadioPRO family of transmitters, receivers, and transceivers incorporates a high performance ADC and a digital modem that performs demodulation, filtering, and packet handling in the digital domain, resulting in increased performance and flexibility. The on-chip antenna diversity algorithm offers additional link performance improvements in multi-path and fade conditions.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Silicon Labs

Silicon Laboratories Inc. is a leading global manufacturer of integrated-circuit (IC) products that combine world-class analog with high-speed digital and FLASH memory in a single, powerful chip. The combination of mixed-signal integration and in-system programmability offers tangible user benefits through higher component integration, greater design flexibility, faster time-to-market, superior system performance, and improved end-product differentiation.
