For Immediate Release

Tektronix THS3000 Series Handheld Oscilloscopes

January 06, 2012 - [Mouser Electronics, Inc.](http://www.mouser.com), regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Tektronix.

The THS3000 Series from Tektronik is designed to perform advance debugging and analysis in both field and lab environments. For engineers and technicians tasked with making both in-lab and in-field measurements, THS3000 offers the highest performing Handheld Oscilloscopes on the market today. Two bandwidth models are available: 100 MHz with 2.5 GS/s maximum sampling rate, and 200 MHz with 5 GS/s sample rate. Both models come with four fully isolated and floating channels with a 10,000 point record length for each channel. THS3000 performs 21 automatic measurements as well as waveform math and FFT spectral analysis. The THS3000 Series, when used with Tektronix voltage and current probes, is equipped to handle power measurements on motor drives, power converters/inverters, and power semiconductor devices.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Tektronix

Tektronix is a world leader in test, measurement, and monitoring. Tektronix's extensive product line includes oscilloscopes, arbitrary/function generators, and accessories. Their Quality Management System ensures consistent quality in products and services throughout the world, allowing customers to design, build, deploy, and manage "next generation" global communications networks and internet technologies. Tektronix is committed to environmental responsibility through its comprehensive Environmental, Health, and Safety Policy and providing charitable support to the community through the Tektronix Foundation.
