## **The TI Zoom OMAP-L138 Development Kit is in Stock at Mouser**

**Mansfield, Texas, USA — December 22, 2009** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Texas Instruments | Processors & DSPs.

The Texas Instruments TMDX138LOGICEXP-B is a Zoom OMAP-L138 development kit for evaluating the functionality of the energy-efficient TI OMAP-L138 applications processor, TMS320C6748/6/2 DSP processors, and the Logic System on Module. The TI TMDX138LOGICEXP-B development kit includes the OMAP-L138 SOM-M1, an application baseboard, and the software required for development work. The OMAP-L138 is a low-power TI applications processor based on an ARM926EJ-S and a C674x DSP core. To learn more, visit <http://www.mouser.com/tidevtools>.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).
