# Mouser Electronics Expands Product Offering from CTS Corporation

Tusonix line includes ceramic EMI/RFI filters and capacitor assemblies

Mansfield, Texas, USA – June 8, 2009 – <u>Mouser Electronics</u>, Inc., known for its rapid introduction of the newest products, today announced it has expanded its CTS Corporation products to include the <u>Tusonix</u> line of EMI/RFI filters, capacitor assemblies, and related components serving the defense, industrial, instrumentation, and telecommunications markets.

Barry McConnell, Mouser Senior Vice President of Products, says, "The Tusonix line is a very broad line of EMI/RFI filters, including those with bushing, solder mount feed-through, and surface mount styles. Our electronic design engineer customers will appreciate the variety of Tusonix filters that are now available to them through Mouser."

"We are pleased to expand Mouser Electronics' role in CTS' global distribution network. Mouser's expertise of supporting new product introductions, through their rapid engagement model, provides their customers with a competitive advantage in serving the design and engineering community. This capability aligns well with CTS' strategy to continuously bring new innovations, technologies and products to market in a timely manner," said Don Schroeder, Executive Vice President and General Manager of CTS Electronic Components.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.
