

For Immediate Release

Mouser is Stocking the New TE Connectivity USB 3.0 Receptacle

March 21, 2011 - Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from TE Connectivity.

TE's USB 3.0 Connectors product line features industry-standard, USB 3.0 Type A Receptacles. Fully backwards compatible, the TE USB 3.0 Type A Receptacles feature the pin options required for SuperSpeed USB signals. TE expanded this offering to include the single-port, right angle USB 3.0 Type A Receptacle with through-hole termination.

TE Connectivity offers a complete line of USB 3.0 Connectors. This product line meets the new USB 3.0 standard that allows 5.0 Gbps (25 GB of data to be transferred in 70 seconds). The TE USB 3.0 Connectors are fully backwards compatible with USB 2.0 and 1.0 connectors, enabling integration into newer designs and re-designs without having to update or change the mating connector. With optimized power efficiency, the USB 3.0 Connectors minimize user wait time and feature no device polling as well as lower active and idle power requirements.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.
