Mouser First to Stock the New Vishay WSLP Series Very High Power Current Sense Resistors!

Mansfield, Texas, USA — December 20, 2010 - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Vishay / Dale.

The Vishay WSLP Series Very High Power Current Sense Resistors offer a very high power-to-footprint size ratio (0.5W in 0805, and 0.4W in 0603 package sizes). In addition, the Vishay WSLP series produces extremely low resistance values (down to 0.001 Ω), very low inductance (0.5 nH to 5 nH), an excellent frequency response (to 50 MHz), and low thermal EMF (<3 $\mu\text{V}/^\circ\text{C}$). Ideal for all types of current sensing and pulse applications, the Vishay WSLP Series Very High Power Current Sense Resistors are included in switching and linear power supplies, instruments, power amplifiers, and shunts. Compliant to RoHS Directive 2002/95/EC.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Part of Warren Buffett's Berkshire Hathaway, Inc., Mouser Electronics, Inc. is an award-winning semiconductor and electronic component distributor, focused on the rapid introduction of new products and emerging technologies to electronic design engineers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility, located south of Dallas, Texas. For more information, visit www.mouser.com.

About Vishay / Dale

Vishay / Dale is a leading manufacturer of passive components, including a broad line of resistor and resistor / capacitor networks, resistor arrays, inductors, magnetics, connectors, thermistors, crystal oscillators and panel displays. Products from Vishay / Dale include an extensive line of commercial and military grade devices and an extensive offering of both surface mount and lead configurations. For more information, visit <http://www.vishay.com/company/brands/dale/>.
