Mouser Electronics Awarded Omron 2008 Distributor of the Year ***Mouser and TTI, Inc. recognized for combined accomplishments***

Mansfield, Texas, USA – May 22, 2009 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it has received a joint award from [Omron](http://www.omron.com) for the 2008 Distributor of the Year, along with parent company TTI, Inc.

The Omron 2008 Distributor of the Year award was presented to both Mouser Electronics and its parent company, TTI, Inc., for their individual and joint accomplishments. Criteria for the awards were judged over Omron's fiscal year, ending March 31, 2009, and included overall partnership and new product promotion, total sales growth, market share, and sales programs implemented to improve business efficiencies. Together, the Mouser and TTI companies complement each other to provide a unique, customized value proposition to customers that further improved their award ranking.

Nigel Blakeway, COO & Managing Director of Omron's component business in The Americas commented, "Despite the challenging economic condition we have all endured during the past 12 months, we were extremely impressed with the continued business growth we have enjoyed with both partners. We firmly believe in the combined strategy of timely New Product Introduction thru the Mouser channel, evolving into effective volume business engagements with the various TTI supply programs. Our partnership continues to benefit by this unique distribution combination. We congratulate both TTI and Mouser and remain very grateful for our developing partnership."

"Mouser Electronics is honored to accept Omron's 2008 Distributor of the Year award," states Glenn Smith, Mouser President and CEO. "This recognition is especially rewarding since it recognizes the combined accomplishments of Mouser and TTI. The award is a result of Mouser and TTI's unique ability to help customers manage their product life cycle from the design-chain to the supply-chain. It is such a pleasure to do business with Omron. With Omron's extensive and innovative product offering and Mouser's ability to rapidly introduce those new products and technologies, our partnership will continue to thrive."
