Mouser Electronics and Ericsson Power Modules Ink Distribution Agreement

Inventory Includes Isolated and Non-Isolated DC/DC Converters

Mansfield, Texas, USA –December 3, 2007 – [Mouser Electronics, Inc.](http://www.mouser.com), known for its rapid introduction of the newest products, today announced it has signed a distribution agreement with [Ericsson Power Modules](http://www.ericsson.com), a unit of Ericsson (NASDAQ: ERIC), a leading supplier of world-class DC/DC power modules for distributed power architectures. Mouser's inventory includes the manufacturer's isolated and non-isolated DC/DC converters and regulators.

The levels of technology, ruggedness, and reliability of Ericsson Power Modules products result in excellent solutions for the communication industry, as well as demanding applications in the medical, avionics, computing, military, space, and industrial market sectors.

"We are pleased to announce Mouser Electronics as a distributor of our products," said Keith Merrill, Director of Sales and Operations, Ericsson Power Modules. "Mouser's demonstrated wealth of experience, knowledge, and capability will be a valuable asset to our company and facilitate our objective of increasing market exposure for our existing and future products. We look forward to a mutually-beneficial collaboration."

"Mouser is proud to add Ericsson Power Modules to our linecard and enhance our power product offering to our engineering customers," said Barry McConnell, Mouser Vice President of Product Marketing. "Our reputation for rapid new product introduction and extensive marketing programs allows us to honor our commitments to both the design engineering community and our suppliers."

Mouser's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make the distributor the design engineer's one-stop shop for all the components and associated development tools necessary for total project design.
