Mouser Product Director Receives Harwin Chairman's Award

Award Recognizes Superior Effort and Dedication to Harwin's Growth

Mansfield, Texas, USA –November 15, 2007 – [Mouser Electronics, Inc.](http://www.mouser.com), known for its rapid introduction of the newest products, today announced that Harwin has named Mouser's Interconnect Product Director, Krystal Jackson, as the recipient of the manufacturer's Chairman's Award for superior effort and dedication to growth of the Harwin organization. Harwin is a leading global supplier of electronic interconnect solutions.

"We are pleased to recognize Krystal Jackson of Mouser Electronics as the recipient of Harwin's first annual Chairman's Award," said Doug Steele, Harwin North American Distribution Manager. "Damon de Laszlo, the owner of Harwin, personally presented this award to Krystal at the Mouser Headquarters in Mansfield, Texas. I feel this signifies the importance Krystal and her team have made in the unprecedented sales growth of Harwin products over the last year. Mouser's ability to get new products to market without delay is a key element to our continued success."

"We are extremely excited Krystal received this recognition of her dedication and commitment to Harwin," said Barry McConnell, Mouser's Vice President of Product Marketing. "It's very gratifying for Krystal and her team to be recognized for their achievements."

Mouser stocks a variety of Harwin's high-reliability products, ranging from standard and custom connector products, to their Datamate connectors. The Datamate line is a professional range of 2mm pitch connectors suitable for any high-performance application, offering superior connector performance at a reasonable price. These small, rugged connectors carry 3.0 amps per contact, with both latching and jackscrew options for high vibration environments.

Mouser's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make the distributor the design engineer's one-stop shop for all the components and associated development tools necessary for total project design.
