Mouser and Amphenol Aerospace Connect in Distribution Partnership

June 15, 2011 – [Mouser Electronics](#), Inc., a top design engineering resource and global distributor for semiconductors and electronic components, today announced its distribution agreement with [Amphenol Aerospace](#), a world leader in the design, manufacture and supply of quality interconnect solutions to the Commercial Aerospace and Military markets. Along with Amphenol’s long history of engineering expertise, Mouser caters to design engineers and buyers by delivering What’s Next in advanced technologies for new design.

This new distribution agreement expands Mouser’s and Amphenol’s long-established partnership. With this deal, Mouser gives engineers and purchasing agents an even broader selection of Amphenol connector products.

Amphenol offers a wide range of shell materials, plating finishes and contact styles to fit the vast market requirements of today’s military and commercial air applications and environments. Amphenol has decades of experience in harsh environment interconnects for land, sea, and space.

“Amphenol is seen throughout the industry as a key source for interconnect solutions. From the beginning of our partnership, Amphenol has demonstrated an ongoing commitment to building a high-performance, entrepreneurial culture, focused on providing leading technology, quality, and highly reliable interconnect solutions. We’re pleased to have the opportunity to build on this foundation with the addition of Amphenol Aerospace to our linecard,” comments Krystal Jackson, Mouser Vice President of Interconnect.

“Amphenol Aerospace is pleased to announce the expansion of our product line offered through Mouser Electronics,” said Rick Aiken, General Manager for Amphenol Aerospace. “Mouser has proven itself as an effective channel to market for Amphenol and it was only natural that we offer additional Military and Commercial aircraft parts through this proven channel.”

With its broad product line, unsurpassed customer service and 17 global customer support centers, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than 2 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Amphenol Aerospace

Amphenol Aerospace, a Division of Amphenol Corporation, is one of the largest manufacturers of interconnect products in the world for the Military and Commercial Aerospace markets. Amphenol designs, manufactures and markets cylindrical and rectangular, electronic, fiber optic, EMI/EMP filter, and a variety of special applications connectors and interconnect systems. Amphenol Aerospace has been awarded both AS9100 - Revision B and ISO9001:2000 quality assurance certifications. Our interconnect products are supplied to thousands of OEMs worldwide and are supported by our worldwide sales and engineering force, plus the largest global network of electronic distributors.
