

For Immediate Release

Mouser Shipping Amphenol Commercial's CoolPower LCC17 Series

April 4, 2012 – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is stocking [Amphenol Commercial's](http://www.mouser.com) CoolPower® LCC17 Series D-sub Connectors for distribution.

Amphenol's CoolPower® LCC17 Series features the familiar shape and functionality of a combination D-subminiature connector with high current, high performance Amphenol CoolBand contact technology. Developed for use in higher amperage applications where the current handling capabilities of typical combo D-sub connectors are insufficient, the CoolPower LCC17 Series carries 55 amperes per power contact and 5 amperes per signal contact. Designed using the same front shells, rear shells and mounting features of standard D-sub connectors, the LCC17 Series is fully interchangeable on a PCB, panel, or cable assembly. This design enables users to upgrade to a higher performance solution without requiring a costly re-design. For more information, visit <http://www.mouser.com/amphenolcoolpower/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Amphenol Commercial

Amphenol Commercial Products (ACP) is the world's foremost connector solution provider, from traditional connectors to the latest technical products. Amphenol Commercial Products has earned a reputation of quality and excellence by understanding the special connector requirements for today's high-tech environments in consumer electronics and industrial products. For more information, visit www.mouser.com/amphenolcommercial.
