For Immediate Release

Mouser Shipping BeagleBoard.org's Newest Member of the Pack - BeagleBone

January 24, 2012 - [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it has stock available for immediate purchase of the [BeagleBoard](http://www.beagleboard.org)'s BeagleBone Community Development Board.

The highly sought-after BeagleBone Community Development Board delivers the bare bones with the greatest access to interface signals for sensors and controls, while eliminating the need for additional equipment with a single cable development environment. Intended to work stand alone or in conjunction with existing BeagleBoard and BeagleBoard-xM, the BeagleBone Community Development Board is targeted at application developers enabling easy access to industry standard I/O's.

BeagleBone features the TI AM3359 processor, a 700MHz ARM Cortex™-A8, 256-MB RAM, and a USB 2.0 port with the ability to supply power. BeagleBone and BeagleBoard-xM are ideal for such applications as 3D printers and industrial robotics, web servers and Internet-enabled kiosks, in-vehicle entertainment, and home media centers. To learn more, visit <http://www.mouser.com/beaglebone/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About BeagleBoard.org

BeagleBoard.org develops low-cost, fan-less single-board computers based on low-power Texas Instruments processors featuring the ARM Cortex-A8 core with all of the expandability of today's desktop machines, but without the bulk, expense, or noise. BeagleBoard.org provides an open source development platform for the creation of high-performance embedded designs.
