For Immediate Release

Mouser and Leading Capacitor Supplier Cornell Dubilier Extend Partnership Worldwide

May 17, 2011 – [Mouser Electronics](#), Inc., a top design engineering resource and global distributor for semiconductors and electronic components, today announced its expanded global partnership with [Cornell Dubilier](#) (CDE). This agreement enables Mouser to offer CDE's extensive portfolio of capacitors to engineers and buyers across the globe, with over 3,500 part numbers available for immediate shipment.

A leading manufacturer of capacitors for the power electronics industry, Cornell Dubilier has been dedicated to advancing capacitor technology for new applications since its founding in 1909. The company combines innovative product technologies with engineering expertise to provide reliable solutions for power supplies, motor drives, HVAC, motors, welding, aerospace, telecom, UPS systems, solar power, wind power, fuel cell inverters and DC link capacitors for electric vehicles.

"We are very pleased to announce our global expansion with CDE," says Andy Kerr, Mouser Vice President of Passive Products. "CDE is a valued partner with a great reputation of manufacturing some of the most innovative and unique capacitor solutions in the industry. With the industry's widest selection of CDE part numbers available from stock, Mouser is uniquely positioned to support design engineers across the globe for next generation applications."

Mike Selvaggi, Vice President of International Sales for Cornell Dubilier further added, "Aligning ourselves with Mouser is an important strategic decision for CDE's business. Mouser is known for their commitment to service excellence, breadth of in-stock products, and fast, global delivery. We look forward to a future of growth and success with Mouser."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers 17 global customer support locations and the latest, most technologically advanced components for customers' newest design projects. Mouser Electronics' website is updated daily and searches more than 7.5 million products to locate over 1.9 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Cornell Dubilier

A leading manufacturer of capacitors for the power electronics industry, Cornell Dubilier has been dedicated to advancing capacitor technology since 1909. Cornell Dubilier combines innovative product technologies with engineering expertise to provide reliable solutions for power supplies, motor drives, HVAC, motors, welding, aerospace, telecom, UPS systems, solar power, wind power, fuel cell inverters and DC link capacitors for electric vehicles. Cornell Dubilier continues to develop and produce unique capacitor solutions for next generation applications in emerging markets. For more information, visit <http://www.cde.com>.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 1.9 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.
