### **Mouser delivers innovative Evidence SRL Solutions to Design Engineers Worldwide**

**June 28, 2011** – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, announced its partnership with [Evidence SRL](http://www.evidencesrl.com) to distribute Evidence products worldwide.

Mouser's partnership with Evidence SRL will help bring innovative software solutions for the development of real-time embedded systems to design engineers across the world. Along with providing a special focus on multi-core hardware platforms, Evidence is widely known as a premier third-party developer in support of Microchip's dsPIC® line of Digital Signal Controllers.

The Evidence FLEX line of embedded development boards can be used by developers who intend to exploit the full potential of the latest Microchip dsPIC® DSC's. FLEX was born as a development platform to develop and test real-time applications with ease for the Microchip dsPIC® DSC. The compact design of FLEX makes it suitable not only for development, but also for direct deployment in the work environment.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 17 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.
