

## For Immediate Release

### **Mouser Delivers High-Definition Camera Development Systems with Leopard Imaging Global Agreement**

**July 19, 2011** – [Mouser Electronics](http://www.mouser.com), Inc., a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it has partnered with [Leopard Imaging](http://www.leopardimaging.com), a leading developer of high definition embedded camera development kits and CMOS camera modules. As an authorized distributor for Leopard Imaging's high-performance development systems, Mouser has already begun shipping their top-of-the-line products to customers across the globe.

Leopard Imaging designs embedded camera development kits, based on high-performance Texas Instruments DaVinci™ digital media processors. The kits are open-source solutions designed to interface easily with TI evaluation boards. Leopard Imaging also offers a variety of add-on video conversion boards and camera boards. The Leopardboard targets digital still, video, and PC camera embedded applications as well as high-definition surveillance systems. The Leopardboard 365 and 368 can be used with all Leopard Imaging camera boards and can be used as a peripheral to the highly popular BeagleBoard.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 17 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **About Leopard Imaging**

Leopard Imaging, Inc. is a High Tech company located in Fremont, High Tech Center - Silicon Valley California. Leopard designs embedded camera development kits based on high-performance Texas Instruments DaVinci™ applications processors. Leopard Imaging embedded camera development kits are open-source solutions designed to interface easily with TI evaluation boards. Leopard Imaging also offers a variety of add-on video input and camera boards. Leopard Imaging devices target digital still, video, and PC camera embedded applications as well as high-definition surveillance systems. For more information, visit <https://www.leopardimaging.com>.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
