## For Immediate Release

### Mouser Delivers Cree's LMH2, LMR2 and LMR4 LED Modules

**April 11, 2012** – [Mouser Electronics, Inc.](http://www.mouser.com), regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is stocking [Cree's](http://www.cree.com) latest LED modules, including the LMH2, LMR2, and LMR4 modules.

Cree LMH2 LED Modules provide lighting designers and manufacturers with simple, easy-to-adopt LED lighting solutions that reduce luminaire development time and speed time-to-market. Cree LMH2 LED Modules incorporate Cree's award-winning TrueWhite® LED technology into a system of driver electronics, optics, and primary thermal management for use in residential and commercial lighting applications, and are available in 850-lm and 1250-lm. For more information, visit [www.mouser.com/creeLMH2](http://www.mouser.com/creeLMH2).

Cree LMR2 and LMR4 TrueWhite® LED Modules are versatile LED lighting modules which allow design flexibility with the beautiful color and high efficacy of Cree TrueWhite® Technology. They are the ideal choice for lighting applications where high CRI (>90) and efficacy are required, such as restaurants, retail, and hospitality lighting. The LMR4 LEDs use a patented mixture of unsaturated yellow and saturated red LEDs to generate white light. The LMR2 and LMR4 proprietary optical systems use a combination of reflective and refractive optical components to achieve a uniform, comfortable appearance, eliminating pixelation and direct view of LEDs. For more information, visit [www.mouser.com/creeLMR2](http://www.mouser.com/creeLMR2) and [www.mouser.com/creeLMR4](http://www.mouser.com/creeLMR4).

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **About Cree**

Cree is a market-leading innovator of lighting-class LEDs, LED lighting, and semiconductor solutions for power applications. Cree's product families include high-brightness LEDs, lighting-class power LEDs, and power-switching devices. Cree's LED solutions are driving improvements worldwide in applications such as backlighting, electronic signs and signals. Cree is also among the world's leading manufacturers of silicon carbide-based diodes for power control and management, providing increased efficiency in a variety of applications from solar inverters to industrial motor drivers to wireless technologies. For more information, visit <http://www.mouser.com/cree>.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
