## For Immediate Release

### Mouser Now Distributing Temp-Flex Specialty Cables from Molex

**November 2, 2012** – [Mouser Electronics](#), Inc., a top design engineering resource and global distributor for semiconductors and electronic components, today announced its new global distribution agreement with [Temp-Flex, LLC](#).

A Molex company, Temp-Flex is a manufacturer of specialty wire and cable products. Temp-Flex invests heavily in research and development to provide technological solutions to the medical, aerospace, military, computer, electronics, test and measurement and industrial markets. Processing equipment and tooling are fabricated in their fully equipped machine and fabrication shops to ensure product consistency. Temp-Flex products are often used in markets with extreme conditions and harsh environments.

“We are extremely pleased to expand our relationship with Molex by adding their Temp-Flex specialty line of wire and cable products to our linecard,” states Krystal Jackson, Mouser Vice President of Interconnects. “Mouser takes pride in providing leading-edge performance solutions for engineers working in the design stage, and with the Temp-Flex cable line from Molex, we are able to provide yet another solution with proven results, particularly in harsh conditions.

“It’s great to partner with an experienced distributor like Mouser to handle the marketing, logistics and distribution of Temp-Flex products,” states Peter Evans, General Manager at Temp-Flex. “Mouser’s global reach and focus on electronic design engineers will help us broaden our customer base to take Temp-Flex to the next level while advancing technology for our customers.”

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

**About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

**About Temp-Flex, LLC.**

Temp-Flex manufactures specialty wire and cable, and invests heavily in research and development to provide technological solutions to the medical, aerospace, military, computer, electronics, test and measurement and industrial markets. Processing equipment and tooling are fabricated in Temp-Flex's fully equipped machine and fabrication shops to ensure product quality and consistency. Temp-Flex employs an extrusion process that uses fluoropolymer insulation with a concentration on thin walls for the medical industry and faster speeds in the electronics industry. Typically designed for extreme conditions and harsh environments, all Temp-Flex product lines adhere to RoHS compliancy standards.

**Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
