

For Immediate Release

Mouser Now Stocking Embedded Artists Android Development Kit

March 26, 2012 – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is stocking the [Embedded Artists](http://www.mouser.com/embeddedartists) Android Open Accessory Application (AOAA) kit, including the LPC11C24 and LPC1769 LPCXpresso boards and the LPCXpresso Base board.

Embedded Artists' AOAA Kit is a stand-alone platform for evaluation and prototyping electronic accessories for the Android operating system. It lets you get up-and-running with AOA experiments immediately. The AOAA board is also suitable for experimenting with CAN, Ethernet and RF networks. It contains two microcontrollers from NXP, the LPC1769 (Cortex-M3) and LPC11C24 (Cortex-M0). The two microcontrollers are connected via an on-board CAN network. The LPCXpresso Base board has been designed to make it as easy as possible to get started with prototyping immediately. For more information, visit <http://www.mouser.com/embeddedartistsAOAA/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Embedded Artists

Embedded Artists is a private company based in Sweden, founded in the year 2000. The main focus of the company is to make development of Embedded Systems as easy and cost efficient as possible. As experts on embedded systems, Embedded Artists offers a full line of services from board level designs and hourly consulting to complete systems. Embedded Artists is a competent partner during the entire development process - from idea to profitable product. Visit <http://www.mouser.com/embeddedartists/> for more information.

Trademarks

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
