## For Immediate Release

### Mouser Employees Remember those Less Fortunate

**January 2, 2013** – The employees of [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, believe that giving is much more than simply a holiday seasonal endeavor.

For Mouser and its 1,000 employees, giving is a year-round, almost daily event as they share their money, their time and their expertise with charities, schools, community service projects and other civic improvement programs.

During the holiday season alone, many employees gave the gift of life by donating units of blood. Others participated in drives that produced over 30 cartons of food and 20 large boxes of toys for families in our community who are experiencing hard times. Mouser employees collected and shipped 35 care packages to our military personal overseas and another 15 crates of gifts and necessary items to nursing homes in our community.

During the past year Mouser's employees have given to the community through numerous charity sponsorships, including donations to the Susan G. Komen Foundation, Tarrant Area Food Bank, Habitat for Humanity and other non-profit organizations. At the Mansfield Activities Center, Mouser will be underwriting the cost of Wi-Fi for the 2013 year.

But it is in education, particularly in math and science, where Mouser's commitment is unsurpassed.

In addition to speaking to classes and serving on school advisory boards in Mansfield, Mouser staff members this past year offered their expertise to the area high school robotics team and helped students build a solar car. The company also sponsored a NASA uplink for local students to speak directly to astronauts aboard the International Space Station, helping to bring science curriculum to life.

Mouser's contributions were formally recognized with a proclamation last month by the City of Mansfield, Texas, for its economic and civic contributions to the city and for Mouser being named the 2012 Employer of Excellence for Tarrant County. The city proclamation specifically cited Mouser as "one of our most philanthropic corporate citizens, working with the Mansfield ISD to assist students in learning robotics, building homes for Habitat for Humanity and donating to the Tarrant Area Food Bank."

As they welcome 2013, Mouser employees look forward to another year full of opportunities for giving and sharing.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.
