

For Immediate Release

Mouser Employees Remember those Less Fortunate

December 20, 2011 – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, reflects on the generous efforts of the Mouser team to give back to the community in 2011. In total, the employees contributed more than \$12,200 to important charities including Susan G. Komen Foundation, American Red Cross, and Hugworks.

Without a doubt, 2011 was a year to remember for Mouser. Not only did the employees give monetarily, they gave the gifts of life and love through a blood drive that raised 79 units of blood, a food drive that provided 30 boxes of food, and a toy drive that gave many large boxes filled with toys to children in need.

As a global distributor, Mouser understands the importance of giving back to both its local and international communities. Employees donated over \$4000 to the American Red Cross for the victims of the devastating earthquake that struck Japan earlier this year. Mouser employees also sent numerous care packages to soldiers across the globe, showing that generosity is not bound by geographical borders.

In addition to their global outreach, the Mouser Team focused locally on the victims of the wildfires that swept across the state during the worst drought Texas has seen in nearly a century. They donated almost a thousand dollars to the American Red Cross of Central Texas to provide aid to those affected.

Similarly, the Tarrant Area Food Bank and local nursing homes received numerous donations from Mouser's team. The company also donated over two thousand dollars to Hugworks, a nonprofit organization dedicated to enhancing the lives of children with special needs through music and other projects/programs. With the 2012 just around the corner, Mouser looks forward to another year full of opportunities to give and show love to those in need.
