For Immediate Release

Mouser Named Harwin's Global Distributor of the Year

August 22, 2011 – Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, has won Harwin's Global Distributor of the Year award for 2010-2011. The prestigious award was presented to Mouser's Vice President of Interconnects, Krystal Jackson, during an awards ceremony at Mouser's global headquarters in the DFW Metroplex, Texas.

Mouser was deemed Global Distributor of the Year after being judged in the following areas: New Product Sales and Overall Growth, Marketing/Web, Overall Sales, Stock, Management Support, Admin Support, EDI Orders/Invoices and POS.

"Receiving this Global Distributor of the Year Award from Harwin is a great honor for the entire Mouser team," states Jackson. "It is a pleasure working with Harwin to distribute their superior line of electrical interconnects to customers worldwide. We look forward to the continued growth of both companies in the future as we work towards our shared goal of bringing design engineers what's next."

"Through its dedication to our company and our customers, Mouser has proven itself to be an outstanding partner, and we are proud to name them Global Distributor of the Year," states Doug Steele, Vice President of Global Distribution at Harwin. "We celebrate everyone at Mouser who has supported Harwin's product lines and contributed to our overall success."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 17 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit http://www.mouser.com.

About Harwin

Harwin has supplied superior electrical interconnects for over 50 years. Harwin connectors have a proven history in several applications, including Military and Aerospace. Harwin's Datamate is a professional range of 2mm pitch connectors suitable for high-performance applications. The series of Miniature High Reliability Connectors with latches (L-Tek) or Jackscrews (J-Tek) provide additional connection security and are great for high levels of shock and vibration. The Datamate connectors have a unique contact design that allows 3 amps for signal contacts and up to 20 amps (Mix-Tek) for power contacts. Datamate provides maximum flexibility for design engineering. Reliability When You Need it Most. For more information, visit http://www.harwin.com.
