

For Immediate Release

Mouser Stocks Honeywell PX2 Series Pressure Transducers

April 12, 2012 – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is stocking [Honeywell Sensing and Control's](http://www.honeywell.com) PX2 Series Heavy Duty Pressure Transducers.

Honeywell's PX2 Series is a line of Heavy Duty Pressure Transducers housed in stainless steel for use in moderately harsh environments. The PX2 Transducer uses piezoresistive sensing technology with ASIC (Application Specific Integrated Circuit) signal conditioning. The wide operating temperature range, IP69K protection, and CE compliance make the series suitable for use with moderately harsh agents such as brake fluid, refrigerants, engine oil, tap water, hydraulic fluids, and compressed air. Typical industrial applications include HVAC/R, air compressors, factory automation, pneumatics, valves, solar energy, and emissions monitoring. The PX2 is engineered to be highly configurable, allowing designers to choose the form factor and functionality needed to meet specific application requirements. For more information, visit www.mouser.com/honeywellPX2.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Honeywell

For innovation that's set well apart, there is only Honeywell Sensing and Control. With more than 50,000 products ranging from snap action, limit, toggle, and pushbutton switches to sensors for position, speed, pressure, torque, temperature, humidity, and airflow, Honeywell Sensing and Control has a product to meet your needs. Honeywell Sensing and Control brings engineering expertise and capabilities that no other company offers. With its comprehensive portfolio, quality, and reliability, Honeywell Sensing and Control products support every step of your most demanding goals and standards to deliver consistent, trustworthy performance. For more information, visit <http://www.mouser.com/honeywell>.
