

## For Immediate Release

### Mouser and Intersil Ink Global Distribution Agreement

**July 17, 2012** – [Mouser Electronics](#), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced a new worldwide distribution agreement with [Intersil Corporation](#), a world leader in the design and manufacture of high-performance analog, mixed signal and power management semiconductors.

For design engineers across the globe, Mouser's agreement with Intersil means faster access to Intersil's newest amplifiers, power modules, analog multiplexers, FET drivers, PWM controllers, interface ICs, switches and video ICs. Intersil's products are known to simplify the design process by integrating functions that design engineers need to make their products the best in their markets in a very efficient way.

"We are very pleased to welcome Intersil to our lineup of industry-leading semiconductor suppliers. Our collaboration with Intersil is great news for design engineers who want to speed their time-to-market," says Mike Scott, Mouser's Vice President of Semiconductors. "We look forward to a long, prosperous business relationship between our two companies."

"Mouser has decades of experience as a trusted, authorized distributor of leading edge components for design engineers," says David Loftus, Senior Vice president of Worldwide Sales and Corporate Marketing at Intersil. "This global agreement will allow us to expand our customer base with Mouser's best-in-class service and streamlined logistics."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **About Intersil**

Intersil Corporation is a leader in the design and manufacture of high-performance analog, mixed-signal and power management semiconductors. The company's products address some of the fastest growing markets within the industrial and infrastructure, personal computing and high-end consumer markets. For more information about Intersil or to find out how to become a member of our winning team, visit our website and career page at [www.intersil.com](http://www.intersil.com).

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
