

For Immediate Release

Mouser Shipping Newest Molex LED Array Holders for Cree XLamp®

March 14, 2012 – [Mouser Electronics](http://www.mouser.com), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is stocking [Molex's LED Array Holders for the Cree XLamp® MP-L and CXA20](#).

Molex LED Array Holders for Cree XLamp® MP-L and CXA20 simplify the LED installation process for Cree energy-efficient XLamp® arrays. By utilizing compression contacts, the Molex LED Array Holders for Cree XLamp® MP-L eliminate the need for hand soldering and reduce installation time, and are available in series and parallel wiring options. Molex LED Array Holders for Cree XLamp® CXA20 are electrical connectors and mechanical holders that simplify installation of Cree CXA20 arrays without solder connections, and are available with or without a clear cover to protect the LED array. Using unmatched interconnect technology, Molex provides a simplified solution to mounting LED arrays into OEM designs by eliminating the need for hand or SMT soldering and expensive SMT equipment. The holders allow customers to install LED arrays quickly into fixtures, enable field replacements, and facilitate upgrades to current applications.

For more information about Molex's products available at Mouser, visit <http://www.mouser.com/molex/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.7 million products to locate over 2.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2.8 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Molex

Molex, established in 1938, is one of the world's largest global manufacturers of interconnect products. Molex creates innovative product solutions for wire-to-wire, wire-to-board, and board-to-board connectors, including header, backplane, terminal, telecom, ethernet, and cable, as well as application tooling. Molex's efforts to minimize the environmental impacts of business activities, products, and services are reflected in their commitment to their environment management system, ECO CARE.
